The Spirit of Missions;

EDITED FOR

THE BOARD OF MISSIONS

Of the Protestant Episcopal Church of the United States of America.

PREACH THE GOSPEL TO EVERY CREATURE.

VOL. IV.

JULY, 1839.

No. 7.

PROCEEDINGS OF THE DOMESTIC COMMITTEE.

MONTHLY ABSTRACT.

May 20, 1839.—Stated Meeting.—The Rev. Mr. Jones was called to the Chair.

The Secretary and General Agent reported his correspondence, and that he visited Auburn, at the Meeting of the Special Convention of Western New-York, on the 8th of May, in order to confer with any in attendance at that place who might have business with the Domestic Department.

On the report of the Committee on Northern Missions, the resignation of the Rev. Samuel Marks as a Missionary in Michigan, was accepted; the salary of the Rev. Mr. Batchelder, Missionary at Burlington, Iowa, fixed; and a resolution adopted relating to the aid to be extended to a station in the upper part of St. Louis, Mo.

June 3.—Stated Meeting.—The Rev. Dr. Whittingham was called to the Chair.

The Secretary and General Agent reported his correspondence, and that he officiated on Trinity Sunday, May 26, in Christ Church, Hudson, when a collection was made amounting to \$50; and in the evening of the same day in Trinity Church, Athens, a small sum being collected, which was retained by the rector for further additions.

He also reported that he was in Philadelphia on the 21st of May, at the Meeting of the Convention of Pennsylvania, and in Baltimore on the 29th of May, at the Meeting of the Convention of Maryland, for the purpose of conferring with any who might have business with this Department.

On the report of the Committee on Northern Missions, the resignation of the Rev. D. I. Burger, as a Missionary in Michigan and of the Rev. W. Allanson, as a Missionary appointed for Indiana, were accepted; and a salary was voted to the Rev. C. B. Stout, as Missionary at Clinton, Michigan.

On the report of the Committee on Southern Missions, Clarksville and the Cumberland Iron Works, Tenn., were

adopted as a station for one year; the Rev. Dr. Muller appointed a Missionary in Tennessee; a salary appointed to the Rev. P. W. Alston, as Missionary at Memphis, in that state; and Lexington, Georgia, added to Athens as a station.

The Secretary reported a draft of the annual report, in part, which was approved and referred back, to be submitted complete at the next meeting.

The Committee adjourned to the 15th inst., dispensing with the Stated Meeting of the 17th.

June 15.—Adjourned Meeting.—The Rev. Mr. Jones was called to the Chair.

The Secretary and General Agent reported his correspondence, and that he officiated on the 2d Sunday after Trinity, June 9, in St. George's Church, Newburgh, when a collection was made amounting to a little more than \$30. He also reported that he was present at Hartford, at the meeting of the Convention of Connecticut, on the 11th, inst. with the view of communicating with any who had business with this Committee.

The Secretary also submitted the draft of the report to the Board of Missions, complete; which, having been fully considered at this and the previous meeting, was adopted and referred to him, to be presented to the Board at its annual meeting at New-Haven, on the 19th instant, as the fourth annual report of this Committee.

PROCEEDINGS OF THE FOREIGN COMMITTEE.

May 21, 1839.—Stated Meeting.—The Rev. Dr. Milnor in the Chair.

At this meeting the Rev. Horatio Southgate was appointed Missionary to Constantinople, to be associated in his labors with the Rev. Dr. Robertson—Mr. S. not being expected to proceed to his station at present.

June 15.—Special Meeting.—The Rt. Rev. Chairman present.

The draft of the annual report of the Committee was submitted and finally adopted. The report had been prepared by the Rev. Chairman of the Sub-Committee on Greece, the illness of the Secretary and General Agent having prevented the performance of that duty. The Treasurer, Mr. Aldis, presented his annual account of receipts and expenditures. Mr. Lewis Curtis and Mr. Frederick S. Winston were appointed to audit the same, previous to its being presented to the Board.

OFFICIAL CORRESPONDENCE.

DOMESTIC.

ALABAMA.

FROM THE REV. G. B. WRIGHT, MISSIONARY AT SELMA.

Selma, April 6, 1839.

The corner stone of our church was laid on the 20th of

March, and the building (brick) is gradually progressing, but it will require all of our exertions and available means to complete it by next Christmas. I visited Mobile and New-Orleans in January last in behalf of our church, at the request of the vestry; and although I made application to none but merchants, who might be supposed to be interested in Selma, my success exceeded my most sanguine expectations. Our numbers here are comparatively few; but if we can succeed in the completion of our edifice, in the manner proposed, it will go very far, by God's blessing, in establishing the Church here on a sure basis. I have now spent a year with the people at Hayneville. They prefer to be no longer dependant upon the Committee, as they believe themselves able to support a minister, if they can obtain his entire services. Believing Selma far the most important point, I shall spend my time here, with occasional visits to the towns and country adjoining.

GEORGIA.

FROM THE REV. E. B. KELLOGG, MISSIONARY AT CLARKSVILLE.

Clarksville, April 1, 1839.

I have continued to officiate as heretofore with the exception of two Sundays, on one of which I preached in Nacooche, about 19 miles distant, and the other in the court-house in this place.

I take the superintendence of my Sunday School, in which I spend about three hours every Sunday, giving instruction to teachers and scholars. They both seem much interested, and generally give a cheerful and punctual attendance. I still design to commence services in Gainsville about the 1st of May. We are now prepared for building our church, and only wait the arrival of workmen. My Saturday evening instructions to the colored population are well received, and I hope may not be in vain. On Easterday I administered the Lord's Supper to five persons. These are all who can at this time be reckoned as our communicants. I look with some impatience to the time when we shall have a church and congregation, which we can properly call our own. The circumstances under which I labor at present, though apparently unavoidable, are no way favorable to the visible increase of our strength. I am persuaded, however, that our services are gradually gaining favor with the people. May the Lord bless them to their good, and to the increase of his own body the Church.

FLORIDA.

FROM THE REV. JEHU JONES.

Quincy, March 28, 1839.

In my last report, I stated what had been done in this place towards organizing a church and making provision for the support of its minister up to the first of January, and also what most probably would be done, in the ensuing quarter. I have only to say that the most sanguine expectations have been more

than realized. A subscription paper started for the purpose of ascertaining what could be procured for building a church, succeeded so well that the vestry felt themselves authorized to appoint a building committee and commence forthwith. A committee of five was appointed, and a contract was made early in February with an architect for the entire completion of a church of the following style and dimensions. It is to be of the Grecian order, 60 feet long, with a vestry room of ten feet in the rear, 45 feet wide and 27 high; to be surmounted with a tower, 28 feet from the highest point of the roof; to be finished with jointed plank; an architrave extending across, sustained by 4 pilasters, with a large door in the centre, &c. four windows on each side and two in front, each 15 by 5 feet 10 inches, to be finished inside in the usual style; to be painted white, and all to be completed ready for use by the first of January next. I am happy to be able to say that the vestry have the means of paying for it entirely, when finished. They have determined also to make an effort to have an organ and bell ready for the church when finished. Having secured this object, the next effort was to make arrangement for the permanent support of the rector. A vestry meeting was held early in March, when they elected me their permanent rector with a salary of \$1200 per annum and a house; the permanent connection to date from the 1st of November next. It was also determined to request the Domestic Committee to discontinue Quincy as a missionary station after the above mentioned date. My vestry is composed of ten of the most influential individuals of the county, and their means are far more than ample for the fulfilment of any engagement they may make. The facts above, show the spirit with which they have taken hold of this thing. The most perfect unanimity has prevailed in the adoption of all these measures, and a determination has been entered into by the vestry, never to stop until all is complete. At a subsequent meeting of the vestry, a gentleman who had already subscribed \$600 to the church, presented a lot for a parsonage house, and offered a loan of \$2000 to the vestry, at a moderate interest, for the purpose of erecting a parsonage house on it forthwith. The offer was thankfully accepted, and a committee appointed to carry out the plan at once. It is needless to say, that I have accepted the above offer, and will, God willing, bring out my family in the fall, and enter upon the duties of my office fully.

But prosperously as the above account may show for the church here, it all relates to the external part. I have the heartfelt consolation of knowing also, that there is a result attained, for which all these are but the means. Three of my leading vestrymen have already become communicants, and the prospect of more being added is very encouraging. My list of communicants now shows about fifteen. Since my last report, I have preached twice every Sunday, when the weather permitted, in the court-house, except two; one of which I spent in Tallahassee, where I

preached twice, and the other in Apalachicola, where I also preached twice. I have just completed a course of lectures on the liturgy of our Church; I have distributed nearly one hundred copies of the prayer-book; have procured a Sunday school library; put in circulation a number of church books, and distributed about two hundred tracts. My congregation is always good, and on the afternoon of Sundays very full. Thus is put in train a system of measures, which in twelve months, with God's blessing, will result in the full establishment of a prosperous parish, in a town where the most sanguine friends of the Church scarcely dared to hope for speedy success. Quincy is perhaps one of the most healthy locations that can be found south of the Allegany Ridge, and, in one respect, possesses advantages over almost any town in Florida for the establishment of the Church. Most of the flourishing towns of the Territory are strictly commercial. The business is done in a few months, and engrosses the whole mind for the time being.

Quincy owes its existence to its reputation for health. It is the resort of the surrounding planters, who make it a permanent residence; and who, in consequence of their business not being engrossing, devote more leisure to the interests of the Church. I mention this fact, because it explains at once the cause, under God, of the successful and rapid growth of the Church in this place.

FOREIGN

WESTERN AFRICA.

FROM THE REV. DR. SAVAGE.

January 10, 1839.—You will rejoice with us at our safe progress thus far toward our field of labor. This is the 29th day out from New-York, and, although we have had the most stormy passage I have ever experienced, yet, considering all things, I can call it favorable. Our precious little band have been down most of the time with sickness, (Mr. Perkins and myself excepted); but, generally, able to be present at our religious exercises, and to enjoy the pleasant weather when it appeared. We made Cape De Verd at 3 o'clock. This point is considered, by way of general division, the commencement of the windward coast, which extends to Cape Palmas. In about half an hour, we passed the Magdalen Islands; and in another, Cape Moussel, rounding which, brings into full view the Island of Goree. This island is little better than a rock; in height about sixty feet. It is half a mile long, and a quarter broad, and is said to contain 5000 souls, all of whom, excepting the white persons attached to the garrison, are in a state of heathenish degradation. It has a number of fine looking buildings, a Romish church, and a noble fortification. This is the point from which Mungo Park started with an expedition of not less than forty men, (Europeans,) to solve the famous geographical problem, involving the course and termination of the Niger. How much

money, labor, and life, have been expended in the accomplishment of an object so unimportant compared with the soul's salvation. In looking at Park's power of endurance, prudence, energy, and zeal, we can but lament that they should have been lost to the cause of Christian Missions, to this benighted country. When will the time come, in which men and nations shall identify their honor and happiness with the extension of Christ's religion? Eleven years after Park, this same spot was visited by the Rev. Edward Bickersteth of England, for a far different object. He came to advance the cause of Christ. A Mission School was then opened, consisting of 87 boys, under the charge of Mr. and Mrs. Hughes, teachers in the service of the Church Missionary Society; and from that time to the present, the cause may be said to have been gradually on the increase, though attended with many discouragements.

19th.—We arrived safely about 6 o'clock this morning and anchored in Monrovia Roads. As far as we can hear, all is well at Cape Palmas, though nothing very recent has been heard. We hope to sail for Cape Palmas in about four days.

TEXAS.

FROM THE RT. REV. BISHOP POLK.

Houston, May 17, 1839.

After completing the visitation of the States of Arkansas, Louisiana, Mississippi, and a part of Alabama, I left New Orleans on the 10th instant, for this republic, in the steam packet Cuba, accompanied by the Rev. Mr. Page of Natchez, who kindly consented to be my companion in travel. We had a prosperous voyage of forty-eight hours to Galveston, and arrived on Sunday, in time to hear a portion of the afternoon services performed by the Rev. Mr. Ranney, of the diocese of Louisiana, whom we found there. We gave notice for services at night, and had a full congregation of attentive auditors. Mr. Page read the services, and a sermon was delivered by myself. We saw, on the same evening and on the following day, the friends of the Church there, and were gratified in hearing that a congregation had been formed and a subscription put on foot, to raise funds sufficient to build a church. The friends of the Church there, we found among the most respectable of the inhabitants, and seemingly anxious for the establishment of their congregation. The town of Galveston is situated on the east end of the island of the same name, lying in the Gulph, and opposite the mouth of the Trinity river. It is the place of deposit for all articles of merchandise imported into the republic, and from which their exports are shipped. It is therefore to have the handling of all the imports and exports of the country. I say all, for the amount sent from, or to any other point, is so inconsiderable as not to be taken into the account. It must therefore become the most important town in the republic. The number of inhabitants now there, is estimated at 2000, and others are moving in daily. The population appeared

to be highly respectable, and would compare very well with that found in any towns of our own country of equal age. Many families I saw there, were as respectable as those found in our country generally. A residence on the island I should think would be agreeable, as the climate is mild and pleasant, and during the summer months the power of the sun is broken by the constantly prevailing breeze. It is a good point for an enterprising man, of competent talents, to exert an influence in behalf of the Gospel, and the present is the time for him to begin. I rode out on Monday before leaving, with the agent for the sale of the lots, to select a suitable one for our church purposes. The proprietors have generally appropriated lots, for the building of churches, to all the principal religious denominations of the country. Ours will be in a very eligible part of the town, and it is hoped that, in the course of a year or two, they may have their building up. On the day after our arrival, we left in a steamer for this place. We left at 4 o'clock, P. M., and arrived on the following day about 7, A. M. the route being through Galveston Bay, the San Jacinto, and Buffalo Bayou. On the bank of the latter stands Houston. The country here is very flat, and the Bayou narrow; so much so, as to make it difficult for two steam-boats to pass each other. The town is well laid out, in the style of our new towns generally, and has the air of business. The census, recently taken, makes the number of inhabitants rather more than 2000. This being the seat of government, the state officers are here, and the residences of those who administer affairs. A change is shortly to be made in this particular, and the Government to be transferred to Austin, on the Colorado; a point recently selected by a commission for that purpose. This place however must always be one of considerable importance. Perhaps it will continue to be the second in the republic. There is a Presbyterian congregation organized here, and also one of our own church. Four or five thousand dollars also have been subscribed for erecting an Episcopal church. This will shortly be enlarged, and the building commenced, as I am assured.

You suggest the appointment of something like a standing committee within this republic, which shall constitute, not only a medium of communication with the Foreign Committee, but also, the Ecclesiastical authority of the State, until its organization can be made complete. The suggestion I like exceedingly; it just meets the wants of the country, and is the best arrangement that could be made, until they can have a bishop. Indeed, I am satisfied from what I have seen since here, that the safety of the Church and the purity of religion, demand the immediate presence of some such authorized organization. There is work for it to perform if it were here now. And you will see that, should your Board think it advisable to establish one, you should select men of experience and character to compose it. A bishop, however, is wanted here, and he should be sent as soon as the competent authorities can

convene. His influence would be immense, and no substitute can adequately take his place.

We have been here for the last four days, holding services and seeing the people. We have been received with great kindness and attention, and interest expressed in the object of our visit. We leave for the interior to-morrow, and shall proceed via Brazoria, Velasco and Matagorda, thence up the Colorado to Bastrop, and the new Seat of Government, thence East to Washington on the Brassos, thence to Nocogdoches, San Augustine and Sabine towns, and on to the United States. We shall, we hope, accomplish this by the second or third week in June. When I shall have reached home, I will write you again.

FROM THE REV. C. S. IVES.

Matagorda, May 6, 1839.

Feeling strongly the importance of the immediate erection of a church, and believing the Episcopalians in the United States would each contribute a small portion of their abundant means, towards the erection of a church, (and that the first one too in this republic) the citizens of the town have held a public meeting and invited me to visit the United States, for the purpose of receiving and gathering such sums as the members of the church may be disposed to contribute; and this invitation, the vestry have unanimously and strongly seconded, and pressed upon me. Messrs. Horton and Clements, of this place, have presented a building lot to the church, of almost half an acre of ground, in a beautiful part of the town. I shall leave therefore very soon.

I have already distributed twelve bibles, eighteen testaments, one hundred and six prayer-books, and almost ten thousand pages of tracts. May the great Head of the Church direct me in all my doings with his most gracious favor, and further me with his continual help; that all my works may be begun, continued, and ended in him.

EDITORIAL DEPARTMENT.

NOTICES.—The ship Emperor, having on board the missionary company for Western Africa, arrived safely at Monrovia Roads on the 19th January after thirty-eight days passage—to proceed in a few days to Cape Palmas.

Miss Elizabeth H. Watson sailed for Crete in the ship Emblem, Capt. Talbot, on the 6th June.

The Rev. Dr. Robertson and family reached Constantinople on the 24th of April.

Rev. H. Southgate was appointed on the 21st May, missionary to Constantinople, jointly with the Rev. Dr. Robertson.

ACKNOWLEDGMENTS.

DOMESTIC MISSIONS.

Contributions received by the Treasurer of the Committee for Domestic Missions, from the 15th May to the 15th June, 1839.

DIOCESE OF NEW-HAMPSHIRE.

Concord, St. Paul's Church, collection,	-	42 00
Portsmouth, St. John's Church, Missionary Society,	-	25 00— 67 00
